

FAASTeam presents:

# Managing Component Failures

Fatal general aviation accidents often result from inappropriate responses to unexpected events. Unexpected events which occur close to the ground require rapid appropriate action. Loss of aircraft control is a common factor in accidents that would have been survivable if control had been maintained throughout the emergency. Pilots and CFI's should train and plan for emergencies by reviewing and practicing "what if" scenarios. Vocalizing takeoff, approach and landing expectations including: aircraft configuration, airspeed, altitude, route and emergency options can help a pilot be prepared for the unexpected. Through pilot skill and knowledge development an airman can prepare for the emergency, determine and gain skills for initial appropriate action managing the usual chain of events that lead to disaster.

## Event Details

**Tue, May 17, 2022 - 19:00 EDT**

**Directions:** You are invited to the following ZoomGov Webinar provided by FAVES. NO PREREGISTRATION REQUIRED OR POSSIBLE (so please don't even try). Simply log in via one of the methods below up to 15 minutes before the start time (7pm EDT). Optional ways to join are:

Click to Join:

<https://faavideo.zoomgov.com/j/1610260048>

Password: 896455

- If prompted, accept the Zoom application as instructed
- For a camera enabled PC or laptop & Optimized for Google Chrome or Microsoft Edge

Web Browser:

<https://faavideo.zoomgov.com>

- Click the JOIN button; enter Webinar ID: 161 026 0048

Password: 896455

- If prompted, accept the Zoom application as instructed
- For a camera enabled PC or laptop & Optimized for Google Chrome or Microsoft Edge

Mobile Device:

- Download the 'Zoom Cloud Meetings' App
- Select 'Join a Meeting' and enter Webinar ID: 161 026 0048

Password: 896455

Phone Audio Only:

- Call 1-888-924-3239; enter Webinar ID: 161 026 0048

Password: 896455

Password: 896455

- The meeting host may require an additional password, if so enter when prompted
